

Introducing the Rydeen Navigation Mirror

Because getting there safely is the most important part of the drive.

It's safe. Unlike portable navigation systems that stick to the windshield or slide around on the dash (both of which are illegal in some states), the Navigation Mirror replaces your existing mirror to give you a single place to get all of the driving information you need at a glance.

It's easy to use. Touch the screen to enter your destination and adjust the view to your liking. The Navigation Mirror talks to you, speaking street names and giving you precise directions.

It's handy. Use its built-in handsfree system to make and receive calls through your Bluetooth-enabled wireless phone. You can even add a rear-view camera to see what's behind you when you're backing up.

Sturdy Construction

Housing stands up in direct sunlight and changing temperatures, just like the factory mirror.

Easily Switch Video

Change between map view and two optional video inputs at the touch of a button.

Built-In Speaker

Hear voice directions, phone conversations or your favorite tunes—loud and clear.

Memory Expansion Slot

Use it to play music, show photos or update maps on your navigation screen.

Built-In FM Transmitter

If the built-in speaker is not loud enough, you can use your car's speakers instead.

Built-In Bluetooth Microphones

Two microphones ensure that callers hear you clearly.

Touch-Screen Operation

Use your finger to do it all: enter directions, answer calls and select your favorite features.

Backup view

The display will automatically show the rear camera view when you are backing up. (Backup camera required)

Navigation Features

- 3.5" touch screen with audible feedback
- 2-D or 3-D selectable view
- Visual / voice-guided navigation with Text-to-Speech and spoken street names
- Preloaded North American maps & Points of Interest (POIs)

Entertainment Features

Photo Viewer

Load your vacation pictures on an SD card and always have them nearby.

Music Player

Add digital music to your SD card and play songs through your radio or the built-in speaker.

Text Reader

Keep important reminders, such as when to change your oil or your anniversary date close at hand.

The Right Mirror Mount

A mount designed for your specific vehicle ensures a perfect fit.
